

# Tips for Success

Board members are here to help you throughout the grant application process. Here are some tips for success based on more than 2 decades of experience!

## Partner

Partner with a BEF Board member to learn about the grant application process and discuss how to develop a successful application.

## Research

Research previously awarded grants on the BEF website to spark creative ideas and to ensure you do not duplicate a program that has already been funded.

## Attention to Detail

Be thorough in writing your application, ensuring you answer all the questions asked on the form. If something is unclear, just ask your Board member contact to clarify.

## Budget

Investigate all costs associated with your proposed program and be sure to include all costs in your budget included in the application. Each line item in the budget should be detailed and easy to understand.

Grant ideas may be submitted at any time and are reviewed on a rolling basis.
